

International Leader in Fume Filtration

The World's Most Extensive Selection of Ductless Fume Hoods.

INTRODUCTION

Air Science Technologies is one of the industry's leading international suppliers of fume filtration products to the medical, industrial, forensic and educational sectors. In addition to our fume filtration products, we also offer full service and support for a variety of fume cupboard brands.

Our professionally equipped team of experienced engineers is available for emergency callouts, and short or long-term maintenance contracts. A few of the services we offer are listed herein.

For more information on a particular service, visit us at www.airscienceuk.com or contact us at +44 077 147 44417 or +44 0151 526 2457.

Servicing and Filter Replacement: Support for Full Range of Fume Filtration Equipment

Air Science provides complete support for ducted and ductless fume cupboards, laminar flow cabinets and safety cabinets in compliance with HSG258 under COSHH.

Minimise equipment failures and ensure the safety of operators by servicing your fume filtration equipment on a regular basis. Failure to do so could result in harmful vapors being re-circulated into the air.

Quality Assurance

Air Science products are manufactured under an ISO 9001 and ISO 14001 quality management system.

Key Attributes of the Air Science Service:

- Quality Assured ISO 9001.
- Flexible Contract Configuration. (Emergency Callout; Short and Long Term Service)
- Over 95% Client Retention Ratio.
- Competitive Prices.
- Experienced and Friendly Engineers.

Forensic Servicing and Decontamination

Air Science Technologies are specialists in servicing of all types of Forensic Fume extraction/ filtration equipment, including equipment decontamination and emergency 24-hour callout service.

Filter Replacement

Air Science supplies a full range of quality HEPA & Carbon filter replacements for all makes of fume cupboards and safety cabinets. We provide filters with more than 14 formulas that can effectively protect operators from a variety of organic and inorganic chemicals.

Filter Disposal

Air Science Technologies is a UK certified waste carrier. Add our Secur™ Safe Disposal Service to your annual filter replacement visit for proper elimination or recycling of saturated filters.
